

The Man with money and his wife put their money in the Bank where it is safe from fire burglars and their own temptation to spend it.

Here is a picture of a young couple who are doing the right thing—they are saving their money instead of wasting it. Some day they can buy a home or a business with that money and be independent.

EVERY young couple can save a PART of their income. The way to do so is simply not to have so much "out-go."

ROAD MAKING IS IMPORTANT

Work Should Be Done in Late Spring or Summer to Get Well Settled Before Cold Weather.

Road making is a matter of a lot of importance to the city man and the farmer alike. Many thousands of dollars are expended annually in this work. Far too great a per cent of the work is done in the fall, sometimes running clear into the winter, for the good of the road and for the judicious expenditure of the money.

The road that is made in the late spring or summer becomes well settled and solid before the freeze of the winter season, and if properly taken care of is a good road all winter. We have driven over a good

many miles of roads during the last winter, made in the late fall, that were all but impassable practically all winter.

A new road made in the late fall can hardly help but be rough all winter. This kind of road means a lot more wear on the auto, a higher gasoline expense and a very much general wear on the car. It also means that the farmer cannot haul nearly as heavy a load with his team and a quicker wearing out of the wagon.

In the rural districts a lot of road work is done by voters working out their poll tax. This work is generally done when they can best spare the time, which is in the fall. If the men who do this work would consult their best interests we believe they would arrange to do it in the summer, even if it were not so convenient and it cost them more.

Road overseers who have this work in charge can help in this line more than anyone else. If they will but try, a lot of this work now done in the fall can be done when it should be. This official should look more to good roads than to his own convenience.—Twenty-first Century Farmer.

Governor of Pennsylvania and Others Contribute Their "Bit" to Improvement of Highways.

Governor Brumbaugh was one of the 150,000 Pennsylvanians who gave May 25 to the cause of better highways. The photograph shows him doing "his bit." Many womenfolks of the community gave their day's work to the improvement of the roads. Not only did the governor make the dirt fly

with his shovel, but he also drove a split-log drag, which is one of the most effective road machines yet contrived.

Making Roads Better.

Only 10 per cent of the estimated 2,300,000 miles of roadway in the United States can be classed as "improved" according to the American Highway association. But road improvement is going forward in 1918 faster than at any previous time in the history of the country.—Goodrich Magazine.

Another Highway Link.

A new connecting highway has been proposed leading from Savannah, Ga., to Seattle, Wash., crossing the Lincoln highway at Omaha. An invitation will shortly be extended to all the cities along the route to send delegates to a convention to be held in Omaha in February.

Aug. 12th

You probably are wondering right now and saying sort of low to yourself:

"Well I wonder what in the Sam Hill is going to happen on Aug. 12th."

My friend anyone of our several hundred contestants would tell you right off the reel that

Forbes Six Big Free Contests

close on Aug. 12th, and there are going to be big doings and six of the happiest people in the world right here in our midst.

You Are of Course

aware of the fact that on July 1st, we advertised that contestants could call at FORBES office and procure coupon books and that with each \$2.00 book sold they would be given 400 votes or 2 votes for every penny. These coupon books are good indefinitely in any one of our departments; are good for payment of account or notes.

The Day

our advertisement appeared in the city papers a little boy walked into our office and said:

"Say Mister give me some of those coupon books; I have made up my mind that I ought to have the prettiest pony in Christian county and I am going to win your pony and then take the prize with him at the Pennyroyal Fair."

You could see victory and battle in this boy's eyes. And by the way, he is selling coupon books like "hot cakes." Says he don't intend to quit until the fight is over. This is the spirit that wins and it wouldn't be a surprise to see this little boy grab the lines, crack his whip and drive that beautiful pony outfit home—all his own—on Aug. 12th.
